LPN Krisandra Miles, Naphcare Employee

SYNOPSIS:

On Thursday, May 17, 2012, at approximately 0252 hours, Dayton Police Officer Robert Simison
arrested Mr. Robert Richardson for Juvenile Court Warrant # _____, original charge

1

MC 1718

Failure to Appear. Mr. Richardson was booked into the Montgomery County Jail at 0252 hours by Corrections Officer Marie Hartley, and later housed in Pod D.

On Saturday, May 19, 2012, at approximately 1522 hours, Mr. Richardson began having a medical emergency inside Pod D cell 544. Upon arrival of Montgomery County Sheriff's Office Employees and Naphcare Employees, Mr. Richardson's condition quickly worsened.

At approximately 1608 hours, Mr. Richardson was pronounced dead at the Montgomery County Jail.

INCIDENT INVESTIGATION:

I received and reviewed Sheriff's Office *Jail Incident Report #668*, submitted by Corrections Officer Larry Rader. Additionally, I reviewed supplemental reports submitted by Corrections Officer Keith Mayes, Corrections Officer Andrew Wittman, Corrections Officer Matthew Henning, Corrections Officer Dustin Johnson, Corrections Officer Marie Hartley, Corrections Officer Michael Beach, Corrections Officer Shannon Smiley, Corrections Officer Michael Stumpff, Corrections Officer Bradley Marshall, Corrections Officer Tonya Benjamin, Sergeant Brian Lewis, Sergeant Ted Jackson, Ms. Stephanie Harvey, Nurse Felicia Foster, EMT Steven Stockhauser, LPN Jon Boehringer, and LPN Kristy Kruse.

Sergeant Jackson wrote, on May 19, 2012, he was assigned as the Housing Sergeant on second watch at the Montgomery County Jail. At approximately 1520 hours, Officer Benjamin called

for assistance regarding a medical issue in Pod D, cell 544. Sergeant Jackson, Officer Johnson and Officer Henning immediately responded.

Sergeant Jackson wrote, he and Officer Johnson entered the cell and observed Mr. Richardson sitting on the floor. Mr. Richardson's cell-mate, Mr. Marcus Maxwell, was assisting Mr. Richardson by holding him still and attempting to keep him from standing.

Sergeant Jackson wrote, Mr. Richardson was attempting to stand and appeared to be "disoriented and in a state of panic." Sergeant Jackson and the other officers began giving verbal orders to Mr. Richardson, instructing him to stay seated but he failed to respond. Sergeant Jackson observed blood and saliva coming from Mr. Richardson's mouth.

Sergeant Jackson wrote, Mr. Richardson had a "dazed / unfocused expression on his face" and was not responding the verbal orders. Sergeant Jackson believed Mr. Richardson was experiencing an unknown medical condition.

Sergeant Jackson wrote, he and Officer Johnson restricted Mr. Richardson's movement to prevent Mr. Richardson from injuring himself. Because of the confined space in the cell and Mr. Richardson's physical size, Officer Johnson and Sergeant Jackson removed Mr. Richardson from inside the cell. Mr. Richardson began thrashing around and did not respond to verbal direction. Mr. Richardson was laying face down, kicking his legs, pulling his arms up towards his upper

body and trying to push himself from the ground. Additionally, Mr. Richardson was "grunting" and breathing heavily.

Based on Mr. Richardson's actions, Sergeant Jackson, Sergeant Lewis, Officer Stumpff and Officer Johnson placed Mr. Richardson in handcuffs. Due to Mr. Richardson's size, a second set of handcuffs were utilized to secure Mr. Richardson. Sergeant Jackson wrote, Mr. Richardson continued "thrashing around and grunting." Officer Johnson, Officer Henning and Officer Stumpff repositioned Mr. Richardson into his right side, while continuing to limit his movement.

According to Sergeant Jackson's report, Medic Stockhauser arrived and began assessing Mr. Richardson. Medic Stockhauser attempted to gather information from Mr. Richardson and illicit a response, but was unsuccessful. Medic Stockhauser attempted to put an oxygen mask on Mr. Richardson, but Mr. Richardson began moving his head to prevent the mask from being placed on his face. Mr. Richardson stated, "Get that off me. I need out. Get me out of here." Mr. Richardson would not respond to any questions.

According to Sergeant Jackson's report, Naphcare Employees decided to give Mr. Richardson an injection to calm him. Officer's continued holding Mr. Richardson's legs and arms, while he was being treated by Medic Stockhauser.

Sergeant Jackson wrote, Nurse Miles arrived and administered the first injection to Mr. Richardson. Prior to the completion of the injection, the syringe malfunctioned and the injection

was deemed unsuccessful. A short time later, a second injection was successfully administered by Nurse Foster. While waiting for the injection to take affect, Mr. Richardson continued thrashing his body. The emergency restraint chair was ordered to Pod D and for the purpose of securing Mr. Richardson, and safely moving him from the upper level of the pod to the First Floor for further medical treatment.

According to Sergeant Jackson's report, after the second injection, Mr. Richardson appeared to calm down. Approximately two to three minutes later, Sergeant Jackson observed Mr. Richardson lying still and required no further restraint. Naphcare Employees relocated to the first level of the pod to await the Emergency Restraint Chair.

According to Sergeant Jackson's report, Sergeant Jackson could not hear Mr. Richardson breathing or see his chest rise and fall like he could moments before. Sergeant Jackson immediately asked Officer Mayes to check Mr. Richardson's breathing. Officer Mayes and Officer Stumpff checked Mr. Richardson's pulse respirations and advised they could not find a pulse and it appeared he was not breathing. Officer Mayes and Officer Stumpff immediately began Cardio Pulmonary Resuscitation (CPR) on Mr. Richardson.

According to Sergeant Jackson's report, Officer Beach and Nurse Miles removed Mr. Richardson's shirt and began chest compressions. Officer Wittman provided Officer Stumpff with a First Aid Mask and Officer Stumpff began rescue breaths. Sergeant Lewis then notified

Security Control that Dayton Fire Department was needed to respond. Officers took turns giving sets of compressions and breaths to Mr. Richardson.

According to Sergeant Jackson's report, the Automated Electronic Defibrillator (AED) was retrieved and Medic Stockhauser prepared the AED as officers applied the pads. The AED performed an initial cycle and no shock was advised. As officers and medical staff continued performing CPR on Mr. Richardson, Sergeant Jackson responded to the First Floor to meet the first responding Dayton Fire Department paramedics.

According to Sergeant Jackson's report, Dayton Fire Department paramedics took over and continued CPR. A short time later, Mr. Richardson was pronounced deceased by the Dayton Fire Department and Dr. Ellis. The scene was secured and Officer Beach remained with Mr. Richardson. Sergeant Lewis began gathering information from all persons involved and Sergeant Whalen assisted with administrative notifications.

SUMMARY OF HEALTH CARE INTERVENTION:

Medic Steven Stockhauser wrote, May 19, 2012, at approximately 1522 hours, Napcare Employees were requested to respond to Pod D reading a medical emergency.

Medic Stockhauser wrote, upon his arrival, Mr. Robert Richardson was lying on his stomach and being "combative" with the officers. Medic Stockhauser observed "blood tinged saliva" on Mr. Richardson's face and mouth. Medic Stockhauser wrote, Mr. Richardson was "very sweaty" and

"non-responsive to verbal or painful stimuli." Additionally, Mr. Richardson was yelling "I want loose," and "Get out of here."

Medic Stockhauser attempted to clear the blood and saliva away from Mr. Richardson's mouth and nose, but Mr. Richardson attempted to bite Medic Stockhauser. Medic Stockhauser wrote, he "administered oxygen, at 15 liters per minute, via non-rebreather mask." Mr. Richardson continued to fight the oxygen, and Medic Stockhauser was unable to obtain a blood pressure due to Mr. Richardson's combativeness. Medic Stockhauser requested additional Naphcare Employees respond to assist with Mr. Richardson.

According to Medic Stockhauser's report, Nurse Krisandra Miles called medical for an order of Ativan to be given to Mr. Richardson, to "calm him down." The first injection was unsuccessful and another injection was brought up and administered by Nurse Felicia Foster.

Medic Stockhauser wrote, he returned to the First Floor and then heard an officer advise Mr. Richardson was not breathing and had no pulse. CPR was in progress when Medic Stockhauser returned to Pod D and Dayton Fire had been requested. An AED was brought to the Pod and placed on Mr. Richardson.

Medic Stockhauser wrote, the AED advised "NO SHOCK ADVISED." Chest compressions and ventilations were performed with corrections staff rotating through compressions. AED prompts during entire rescue attempt advised "NO SHOCK ADVISED."

According to Medic Stockhauser, Dayton Fire Department arrived and intubated Mr. Richardson, and attempted "IV access." EMT Stockhauser wrote, "After approximately 20 minutes of resuscitation efforts, Dayton Fire advised Dr. Ellis (on scene) that they wanted to stop rescue attempts." Dr. Ellis agreed and all rescue attempts stopped at 1608 hours.

ADDITIONAL INVESTIGATION

On Saturday, May 19, 2012, at 1608 hours, Dr. Ellis pronounced Mr. Robert Richardson deceased.

I received and reviewed Mr. Richardson's Postmortem Examination Report, completed by Dr. Bryan Casto, M.D., on Sunday, May 20, 2012. Dr. Casto ruled Mr. Richardson manner of death "Accident," due to "Cardiac arrhythmia due to hypertensive and arteriosclerotic cardiovascular disease. The death is contributed to by acute marijuana intoxication and obesity."

CONCLUSION OF REVIEW:

On Thursday, May 17, 2012, at approximately 0252 hours, Dayton Police Officer Robert Simison arrested Mr. Robert Richardson for Juvenile Court Warrant # _____ original charge Failure to Appear. Mr. Richardson was booked into the Montgomery County Jail at 0252 hours by Corrections Officer Marie Hartley, and later housed in Pod D.

On Saturday, May 19, 2012, at approximately 1522 hours, Mr. Richardson began having medical issues inside Pod D, cell 544. Upon arrival of Montgomery County Sheriff's Office Employees and Naphcare Employees, Mr. Richardson's condition quickly worsened.

Mr. Richardson was attempting to stand and appeared to be “disoriented and in a state of panic.” Sergeant Jackson and the other officers began giving verbal orders to Mr. Richardson, instructing him to stay seated but he failed to respond. Mr. Richardson had blood and saliva coming from his mouth.

Sheriff's Office Employees restricted Mr. Richardson's movement to prevent Mr. Richardson from injuring himself. Because of the confined space in the cell and Mr. Richardson's physical size, Mr. Richardson was removed from inside the cell. Mr. Richardson began thrashing around and did not respond to verbal direction. Furthermore, Mr. Richardson was “grunting” and breathing heavily.

Based on Mr. Richardson's actions, Sergeant Jackson, Sergeant Lewis, Officer Stumpff and Officer Johnson placed Mr. Richardson in handcuffs. Due to Mr. Richardson's size, a second set of handcuffs were utilized to secure Mr. Richardson. Officer Johnson, Officer Henning and Officer Stumpff repositioned Mr. Richardson into his right side, while continuing to limit his movement.

Medic Stockhauser arrived and began assessing Mr. Richardson. Medic Stockhauser attempted to gather information from Mr. Richardson and illicit a response, but was unsuccessful. Medic Stockhauser attempted to put an oxygen mask on Mr. Richardson, but Mr. Richardson began moving his head to prevent the mask from being placed on his face.

Naphcare Employees chose to give Mr. Richardson an Ativan injection to calm him. The first injection was unsuccessful. A second Ativan injection was delivered and was successfully administered to Mr. Richardson.

While waiting for the injection to take affect, Mr. Richardson continued thrashing his body. The emergency restraint chair was ordered to Pod D and for the purpose of securing Mr. Richardson, and safely moving him from the upper level of the pod to the First Floor for further medical treatment.

A short time later, Mr. Richardson stopped breathing and had no pulse. Sheriff's Office Employees and Naphcare Employees immediately began Cardio Pulmonary Resuscitation (CPR) on Mr. Richardson. Additionally, the Dayton Fire Department was contacted and requested to respond.

Sheriff's Office Employees and Naphcare Employees continued CPR until the Dayton Fire Department arrived. Furthermore, the Automated Electronic Defibrillator (AED) was retrieved and Medic Stockhauser prepared the AED as officers applied the pads. The AED performed assessed Mr. Richardson and "no shock" was advised.

Dayton Fire Department arrived and continued CPR. At approximately 1608 hours, Mr. Richardson was pronounced dead at the Montgomery County Jail by Dr. Ellis. Montgomery County Sheriff's Office Jail Employees involved in this incident concerning Mr.

Richardson complied with Sheriff's Office policies and procedures.

The Montgomery County Coroner's Office determined Mr. Richardson's cause of death to be "Accident," due to "Cardiac arrhythmia due to hypertensive and arteriosclerotic cardiovascular disease. The death is contributed to by acute marijuana intoxication and obesity."

This risk management investigation concludes that the Montgomery County Sheriff's Office Jail Employee provided basic care to Mr. Richardson until the Dayton Fire Department arrived and later pronounced Mr. Richardson deceased.

Jail Division

Case 12-9824 - Crosby
[Signature]
05/29/12

TO: Major Daryl Wilson
FROM: Captain Charles Crosby
DATE: May 23, 2012
SUBJECT: In-Custody Death; Inmate Robert Richardson 12-9824

The attached packet outlines the circumstances surrounding the in-custody death of inmate Robert Richardson B/M 28 YOA, #12-9824. The packet contains ARS #12-4696, Jail Incident Report #12-668, video recordings documenting the staff response, witness statements completed by inmates housed in Pod D at the time of this incident, and other pertinent documentation.

Summary

On Saturday, May 19, 2012, at approximately 1522 hours, inmate Marcus Maxwell (12-8713) called security control using the steno system in Pod D, Cell 544, to report a medical emergency involving his cellmate Robert Richardson (12-9824). Jail staff and medical personnel responded to Cell 544 to investigate. Upon arrival at Cell 544, officers removed inmate Richardson from his cell and staff attempted to assess Richardson's medical condition; this was made difficult by Richardson's confused and combative behavior.

Several officers struggled to gain control of inmate Richardson so he could be assessed and the supervisors on the scene directed the application of wrist restraints to inmate Richardson. Medical personnel on scene observed inmate Richardson's behavior and briefed Jail Physician Dr. Ellis. Dr. Ellis issued an order to administer a shot to inmate Richardson to calm his behavior and enable medical to complete their assessment. The shot was administered by Nurse Felicia Foster at approximately 1537 hours.

Inmate Richardson was checked by jail staff and found to be in full arrest; no breath or pulse. The AED was requested, a Dayton Fire Department (DFD)

medic response was requested and staff present immediately began CPR on inmate Richardson. When DFD arrived in the pod, they assumed emergency care working on inmate Richardson. The CPR efforts were unsuccessful in reviving inmate Richardson. Dr. Ellis was present in the pod and made the pronouncement of death at 1608 hours.

The staff response after pronouncement included an evidence technician for photographs and a detective response by Sergeant Stephens, Detective Clymer, Detective Conley and Detective Sollenberger. Coroner's Investigator Fannin responded to conduct their investigation. Investigator Fannin notified inmate Richardson's family of his passing at 1725 by phone from my office.

The listed timeline is based on a review of available reports and video recordings from the jail video system as recorded on May 19, 2012. The times listed here were obtained from the facility video system:

15:16:17 – Corrections Officer Benjamin leaves Pod D
15:17:38 – Corrections Officer Benjamin re-enters pod with other officers
15:18:30 – Camera in pod (TPZ) focused on Cell 544
15:18:32 – additional staff and supervisor on scene (Sergeant Jackson)
15:18:38 – inmate Richardson removed from cell; observed struggling with officers
15:18:50 – Sergeant Lewis observed at cell
15:18:54 – handcuffs being applied to inmate Richardson
15:19:22 – medical staff in pod (Stockhauser and Miles)
15:33:00 – first syringe (to administer shot) fails
15:37:15 – shot administered by Nurse Foster
15:40:30 – jail staff checking inmate Richardson
15:41:11 – inmate being rolled to his back; medical called up from first level of pod
15:41:27 – CPR started / AED requested
15:45:25 – Dr. Ellis on scene at Cell 544
15:49:17 – Dayton Fire Department in pod (see attached run sheet)
16:08 - inmate Richardson pronounced by Dr. Ellis
16:38 - Coroner's office in pod
17:07 - inmate Richardson's body removed by coroner's office

Conclusion

I have completed my preliminary review of this incident and did not find any violations of Office policy. I am submitting this for your review.

Respectfully Submitted,

Captain Charles Crosby

Primary Narrative

Report Officer	Date Reported	Time Reported
1157	05/19/2012	16:32:10

On Saturday May 19th, 2012, I was assigned as the Delta Pod Officer on Third Watch. At approximately 1522, Security Control called over the radio of a possible medical emergency in Delta Pod ,cell 544. When units arrived on scene Inmate Robert Richardson (12-9824) was found on the floor of the cell having some type of unknown medical emergency.

Officers were unable to control Inmate Richardson, who thrashing around, so he (Richardson) was secured in handcuffs. Numerous Officers had to maintain control of Inmate Richardson while medical staff attempted to treat Inmate Richardson. The inmate continued kicking at Officers that were trying to assist him. Soon after, Inmate Richardson received one injection, and shackles were also applied (replacing the two sets of handcuffs) to the inmates hands because of his size.

A few minutes after receiving the injection, Inmate Richardson stopped resisting officers. At 1546 chest compressions were started by Officers Marshall, Beach, Stumpff and Mayes. At approximately 1550 hours, the Dayton Fire Department arrived and took over emergency medical care.

At approximately 1608 hours, Inmate Richardson was pronounced deceased. I remained in the pod as EV Tech Shutts arrived in the Pod to take pictures of the incident scene, the Coroner's Office investigator and Montgomery County Sheriff's Office detectives conducted their investigation.

Copies of the Divar Video(s), Detex Log(s) and scene log will accompany this report.

Respectfully Submitted,
 Corrections Officer L.D. Rader 1157

Supplemental Narrative

Report Officer	Date Reported	Time Reported
C022	05/22/2012	21:04:30

On May 19, 2012, I was assigned as the Third Watch SBH Crisis Therapist. I was informed of the crisis situation that occurred in D-pod and was called to the pod by Captain Crosby who requested that I speak with all D-Pod inmates in order to process their feelings and reactions to the traumatic event they witnessed as a result of a fellow inmate dying.

I was assisted by Co Rader to break down the pod into 3 groups for Crisis/trauma Debriefing sessions. In these groups it was apparent that the inmates were experiencing a multitude of feelings/emotions. Many of the inmates stated the event traumatized them and they shared about having anxiety, anger , grief, shock, fear, irritability, loss of emotional control, depression, feeling overwhelmed, blaming others and some voiced compassion and concern for the inmate and his family.

Each Debriefing session started out by me introducing myself and sharing my professional credentials of being a Master's Social Worker, Licensed Social Worker and a Licensed Independent Chemical Dependency Counselor.

1. I informed them that I was not conducting an investigation, but shared the purpose of this group was to acknowledge that the strong emotions that they were experiencing are normal reactions to an abnormal situation. The atmosphere was calm but the overall mood was intense, some inmates were withdrawn and somewhat guarded, some displayed emotional outburst of anger which I was able to easily re-direct and normalize their feelings.

2. We discussed how the word "crisis " in Chinese means an opportunity to change and this definition was used to help de-escalate their anger in regards to what they considered to be mistakes that were made by the jail and

Incident Report

Supplemental Narrative

medical staff in handling the deceased inmate. We also talked about this being an opportunity for them to turn their lives around and not return to the jail system. Many inmates repeatedly stated "it could of been me" which many admitted was their first thought as they witnessed Inmate Robert Richardson (12-9824) being in medical distress.

3. Some inmates were able to share additional information regarding Inmate Robert Richardson (12-9824) medical situation since the roommate was re-housed in D- Pod. This was helpful to the inmates which assisted in lessening their "perceived" blame towards some jail/medical staff.

Finally we discussed some stress reducing techniques that would be beneficial to relieve anxiety and other feelings, techniques such as admitting how they feel, talking with a cellmate or writing a kite to speak with SBH or the Chaplain were suggested. There were no individual inmates that stood out during these sessions and I have nothing further to report.

Report Officer	Date Reported	Time Reported
823	05/21/2012	00:58:25

On Saturday, May 19, 2012, I was assigned as the Booking Sergeant at the Montgomery County Jail, located at 330 W. Second Street, Dayton, Ohio. At approximately 1522 hours, I responded to Delta Pod, cell 544, for an unknown medical emergency. When I arrived to cell 544, located on the second level of Delta Pod, I observed Officer D. Johnson, Officer Henning and Sergeant Jackson attempting to secure Inmate Robert Richardson (12-9824) in handcuffs. Inmate Richardson was face down and resisting officer's attempts to secure him. Myself and Officer Stumpff, who had also arrived, assisted with gaining control of Inmate Richardson arms to assist with securing him in handcuffs. A few moments later, we were able to secure Inmate Richardson, utilizing two sets of handcuffs.

Officers continued to maintain control of Inmate Richardson's legs and arms as he continued to be resistive, attempting to get up from the ground and trying to free his legs and arms. Inmate Richardson also had blood coming from his mouth and occasionally muttered unintelligible remarks. Inmate Richardson's tone and demeanor was similar to that of an intoxicated subject. Officer's and medical staff continued to advise Inmate Richardson to calm down, stop resisting and allow us to help him. Medic Stockhauser had already arrived and was attempting to provide oxygen and provide additional medical care to Inmate Richardson. Inmate Richardson was repeatedly asked to tell us (staff) what was wrong with him. Inmate Richardson was only able to verbalize a few words we were able to understand, such as: "get off me" and "let me up." While officers and medical staff attended to Inmate Richardson, I searched cell 544, which he shared with Inmate Marcus Maxwell. I did not find anything, such as: pills, marijuana, crack cocaine, heroin, or any other substance that could have caused Inmate Richardson's unexplained behavior or unknown medical condition.

Officers D. Johnson and Henning were replaced by Officers Beach, Mayes and Marshall, who continued to maintain control of Inmate Richardson, to prevent him from further injuring himself. Sergeant Jackson and I requested the Emergency Restraint Chair be brought to the Pod, so Inmate Richardson could be controlled without causing injury to himself or staff. Additionally, this would allow staff to handle Inmate Richardson more easily, as we planned to relocate him to the first floor to continue to assess his unexplained condition.

As we waited for the restraint chair, we replaced Inmate Richardson's two sets of handcuffs with leg shackles to allow better mobility and better access for medical. Additionally, Nurse Miles attempted to give Inmate Richardson an injection, but was unsuccessful. Soon after, Nurse Foster arrived with another injection and successfully administered the injection into Inmate Richardson's buttocks.

Officers continued to maintain control of Inmate Richardson, while we waited for the injection to have an effect on Inmate Richardson. A few minutes passed and Inmate Richardson demeanor changed, he was no longer

Incident Report

Supplemental Narrative

resisting. Officers Mayes and Stumpff were instructed to check Inmate Richardson's breathing. After a few moments they determined Inmate Richardson was not breathing. Officers Beach, Mayes, Marshall and Stumpff immediately began Cardio Pulmonary Resuscitation efforts (CPR), while medical returned to the second level. I immediately requested Dayton Fire respond. An AED had also already been requested by officers.

Dayton Fire arrived within a few minutes and took over Emergency Medical Treatment. Additionally, Dr. Ellis was also present upon Dayton Fire's arrival. After approximately 20 minutes of resuscitation attempts, Dayton Fire and Dr. Ellis determined that any additional attempts of resuscitation would be futile. Dr. Ellis terminated the resuscitation efforts, pronouncing Inmate Richardson deceased, at 1608 hours.

I immediately began gathering information necessary to conduct a complete investigation by investigators. I also contacted Sergeant Whalen and advised him of the situation and requested he begin making required phone calls to initiate call-out procedures.

While awaiting investigators, I conducted a preliminary interview with Inmate Richardson's cell-mate, Inmate Marcus Maxwell (12-8713). Inmate Maxwell stated the following: He had been housed with Inmate Richardson since Thursday, May 17, 2012. Inmate Maxwell stated Inmate Richardson slept most of the first day, because he (Richardson) did not get much sleep while he was on the first floor awaiting placement in a housing unit. Inmate Maxwell stated they both got along fine and Inmate Richardson was fairly talkative. I asked Inmate Maxwell if Inmate Richardson ever reported or appeared sick. Inmate Maxwell said Inmate Richardson told him (Maxwell) he was starting to feel sick on Friday, May 18, 2012; however, Inmate Maxwell stated he thought Inmate Richardson was depressed about being in jail. Inmate Maxwell stated Inmate Richardson never requested medical or asked for a Medical Kite. The only kites either of them asked for were for trying to get approved as Pod Workers.

Inmate Maxwell stated Inmate Richardson woke up this morning, Saturday, May 20, 2012, and spit some type of clear substance/fluid in the toilet, but never vomited. They continued to talk during the early morning and medical arrived and took Inmate Richardson's blood pressure. Inmate Maxwell said Inmate Richardson returned from visitation with his fiancé' at approximately 1505 hours and was in good spirits, talking about completing his 30 days and going home. A few moments later Inmate Richardson stood up and walked over to the sink and bent down to get a drink of water. Inmate Maxwell stated Inmate Richardson suddenly jerked upwards, let out an indescribable yell, fell backwards onto his buttocks and began spitting out blood from his mouth. Inmate Richardson then slumped over onto the cell floor, and his hands drew upwards with clenched fists. Inmate Maxwell said Inmate Richardson's body was shaking as if having a seizure. Inmate Maxwell stated he hit the Steno and requested assistance. Inmate Maxwell stated he attempted to roll Inmate Richardson on his side, because he thought Inmate Richardson had stopped breathing. Inmate Maxwell stated approximately 20 seconds later, Inmate Richardson started moving, but appeared confused and disoriented. A few seconds later corrections officers arrived and removed Inmate Richardson from the cell and secured him (Richardson) in handcuffs.

I asked Inmate Maxwell if he observed any officers act inappropriately, punch, kick or otherwise use unnecessary force on Inmate Richardson. Inmate Maxwell stated, "No, but it shouldn't have taken four of you to handcuff him. It was a little excessive." I thanked Inmate Maxwell for his statement and concluded my contact with him.

Once detectives arrived I provided them with all pertinent information I had obtained regarding this incident. I was in and out of the pod, during the remaining investigation, as I attempted to attend to other duties within the jail.

At 2315 hours, I conducted a debriefing with officers and medical staff. Additionally, SBH educated officers and medical staff about the various coping mechanisms associated with this type of incident. Staff was also advised SBH was available for consultation if needed and employees were also instructed on how to receive off-site counseling if needed.

I will forward all other documentation, such as: Divar Video(s), Detex Log(s), AED information and scene logs, with this jail incident.

Respectfully,

Sergeant B.M. Lewis #823

Report Officer N086	Date Reported 05/20/2012	Time Reported 15:08:50
-------------------------------	------------------------------------	----------------------------------

On 05/19/2012, I was the RN on duty in medical. At approximately 1522 hours, a call came across the radio for additional units to respond to Pod D cell #544 for an unknown medical emergency. Medic Steve responded from first floor and Nurse Krissandra responded from medical. Approximately 2 minutes later, Medic Steve called via radio and asked for additional medical units to respond. Nurse Kristy and I responded. Upon arrival, Inmate Robert Richardson (12-9824) was on the floor outside of cell #544 actively struggling with several corrections officers and seemed to be disoriented. Due to not having enough medical information on Inmate Richardson, I returned to medical to look up his medical history and speak with Dr. Ellis (who was onsite) about him. It was determined, after checking this inmate's medical history and allergies, to administer Ativan 2mg intramuscularly to calm him. I drew up the Ativan and gave the injection to Nurse Kristy to take to Pod D. Approximately 2-3 minutes later, I was advised by Nurse Kristy that the injection was unsuccessful and the medication had aspirated from the syringe. I then received a new order from Dr. Ellis for a second injection. After drawing up the second injection, I responded back to Pod D and administered the injection into Inmate Richardson's right gluteal muscle. It was then determined by Sgt. Jackson, that Inmate Richardson be placed in the restraint chair, for his security, as well as others, until he was more calm. After approximately 2-3 minutes, I returned to medical. It should be noted, that prior to the injection being administered, Inmate Richardson was actively struggling with officers and continued to struggle after the injection was administered.

After returning to medical, I heard a call via radio, to have an ambulance respond to the jail. I immediately called Pod D and was told by C/O Smiley that Inmate Richardson was now unresponsive. Dr. Ellis, Nurse Jon and I immediately responded to Pod D. Upon arrival, corrections officers were administering CPR. Inmate Richardson was unconscious with no pulse present. I took over artificial respirations as corrections continued with chest compressions.

Dayton Fire and Rescue arrived on scene and took over with ACLS protocol. After several more minutes of unsuccessful resuscitation attempts, Dayton Paramedics reported their findings to Dr. Ellis, who then called time of death at 1608 hours.

Respectfully submitted,

Felicia Foster, RN #N110

Report Officer N086	Date Reported 05/20/2012	Time Reported 12:48:21
-------------------------------	------------------------------------	----------------------------------

On May 19, 2012 I was assigned as the Nurse in medical on 3rd watch. At approximately 1525 hours, I was asked to respond to D-pod for an inmate who was later identified as, Inmate Robert Richardson (12-9824). Upon arrival the inmate was laying on his stomach and first floor medic was assessing Inmate Richardson. Nurse Foster and I returned to medical to speak with Dr. Ellis and orders were given to administer IM injection. Nurse Miles attempted to administer the shot; however, the syringe malfunctioned. Nurse Foster then brought up another injection and it was administered. I then returned to medical and heard jail staff request Dayton Fire Medics respond to the jail for an unresponsive. I was called to bring another oxygen tank up to D pod, upon arrival they had already started CPR.

Respectfully submitted,

Kristy Kruse N125

Report Officer 1197	Date Reported 05/20/2012	Time Reported 10:21:40
-------------------------------	------------------------------------	----------------------------------

On 05/19/2012, I was assigned to Prints and Photos with Field Training Officer D. Johnson #746 on second watch. At approximately 1522 hours, Field Training Officer D. Johnson and I responded to D-Pod for an unknown medical call in cell #544.

Upon entering D-Pod, I observed Corrections Officer Benjamin #1041 opening the cell door for cell #544. I heard an elevated voice of concern and observed an inmate seated on the floor. He was later identified as Inmate Robert Richardson (12-9824). Also in cell #544 was another inmate, later identified as Marcus Maxwell (12-8713).

He was telling Richardson to remain on the floor. Maxwell appeared to be trying to calm Richardson down. Richardson appeared to be in a daze, unaware of what was going on, and in state of panic; blood was on his face

and in the mouth and nose area. To prevent an unintentional attack on Corrections officers or hurting himself, he was assisted onto his stomach and secured with two pairs of handcuffs. Richardson continued to struggle while on his stomach and was kicking his legs. I placed my left knee over his lower legs to prevent him from kicking. Richardson still appeared to be in a state of panic and disorientation.

Sergeant Jackson then ordered third watch to replace second watch personal due to shift change. Following that order, I was replaced and exited the pod with Field Training Officer D. Johnson.

Respectfully Submitted,

Corrections Officer M. H. Henning #1197

Report Officer 266	Date Reported 05/20/2012	Time Reported 09:17:45
-----------------------	-----------------------------	---------------------------

On May 19, 2012, I was assigned as the Housing Sergeant on second watch at the Montgomery County Jail, located at 330 W. Second Street, Dayton, Ohio. At approximately 1520 hours, I responded to housing location, D Pod in response to a call for assistance. The assigned Corrections Officer to D Pod, Officer Benjamin called for assistance reference a medical issue in cell 544. Upon entering the pod, I responded with Officer's D. Johnson and Henning to cell 544 located on the second level of the housing unit. Officer Benjamin was at the cell door and opened it as we arrived. Officer Johnson and I entered the cell and observed Inmate Robert Richardson sitting on the floor. Inmate Richardson's cell-mate, Inmate Marcus Maxwell appeared to be providing assistance to Inmate Richardson by holding him still and trying to keep him from getting up.

Upon entering the cell, Inmate Richardson was in a seated position facing the outside wall in close proximity to the cell door. Inmate Richardson was attempting to stand up or roll forward and appeared to be disoriented and in a state of panic. Inmate Richardson's movements and physical demeanor was lethargic and unbalanced. We began to give verbal orders to Inmate Richardson, instructing him to stay seated but he did not respond. Inmate Richardson turned his head toward me and I could see he had blood and saliva coming from his mouth. Inmate Richardson had a dazed / unfocused expression on his face and didn't appear to be comprehending our verbal direction or events going on around him. Based on my initial observations related to Inmate Richardson's physical condition, behavior and comprehension, it seemed he was experiencing an unknown medical issue.

Officer Johnson and I grabbed Inmate Richardson to control his movement to prevent him from injuring himself. Because of the confined space in the cell and Inmate Richardson's physical size, Officer Johnson and I pulled him out of the cell and onto the walkway. Inmate Richardson began thrashing around and did not respond to verbal direction. Inmate Richardson was laying face down, kicking his legs, pulling his arms up towards his upper body and tried to push himself up. Inmate Richardson was also verbally grunting and breathing heavily. Officer Johnson and I made several verbal attempts to get Inmate Richardson to calm himself, relax and stop moving. Inmate Richardson would not respond to our verbal direction and became more uncontrollable. I retrieved my hand restraints and ordered Inmate Richardson be secured in them for his safety and ours. With the assistance of Officer Johnson, Inmate Richardson's left arm was placed behind his back and I secured his wrist in the restraint. Because of Inmate Richardson's size, a second set of hand restraints were utilized by Officer Johnson to assist in securing his right wrist. Officer Stumpff and Sergeant Lewis assisted in placing Inmate Richardson's left arm behind his back and his right wrist was then secured. During this incident, several more verbal attempts were made to get Inmate Richardson to calm himself, relax and stop moving. We were also unable to illicit any information from Inmate Richardson or a response that was comprehensible. Inmate Maxwell was safely removed from the cell, relocated and later debriefed.

After Inmate Richardson was secured in hand restraints, he was actively thrashing around and grunting. Officer Johnson, Henning and Stumpff continued to control him from moving around and he was repositioned onto his right side. At this time, medical personnel to include Medic Stockhauser arrived at the incident and began medical assistance. Medic Stockhauser attempted to gather information from Inmate Richardson and illicit a response, but was unsuccessful. Medic Stockhauser attempted to put an oxygen mask on Inmate Richardson as he began moving his head around. Inmate Richardson finally started to say, "Get that off me." He also repeated, "I need out" and "Get me out of here." Inmate Richardson would not respond back to any verbal dialog or answer any questions.

While medical personnel was trying to treat Inmate Richardson, a decision was made by medical to give him an

Montgomery County Sheriff's Office - County Jail

Incident Report

Supplemental Narrative

injection to calm him. Also, I had Officer Johnson and Henning replaced by third watch officer's responding to the incident. Officer's continued to hold Inmate Richardson's legs and both arms while he was being treated by Medic Stockhauser, who was supporting his head. Inmate Richardson was initially secured in two sets of handcuffs due to his physical size. Sergeant Lewis and I made the decision to remove the hand restraints and apply leg shackles in order to make it easier for medical to assess and move Inmate Richardson.

Officer's continued to restrain Inmate Richardson's legs and arms. Officer Mayes also replaced Medic Stockhauser with supporting his (Richardson's) head. Nurse Miles arrived to the incident and administered the first injection. Prior to the completion of the injection, the syringe malfunctioned and the injection was deemed unsuccessful. A short time later, a second injection was successfully administered by Nurse Foster in the right buttocks. While waiting for the shot to take affect, it appeared Inmate Richardson's medical condition was still undetermined and he was actively thrashing around. The Emergency Restraint Chair was ordered to the pod and was going to be utilized to safely secure Inmate Richardson, so he could be moved from the upper level of the pod to the first floor for further medical treatment.

While observing Inmate Richardson after the second injection, he appeared to calm down. Approximately two to three minutes later, I observed Inmate Richardson lying still and required no restraint. Medical personnel relocated to the first level of the pod to await the Emergency Restraint Chair. As I continued to observe Inmate Richardson, I could not hear him breathing or see his chest area rise and fall like I could moments before. I immediately asked Officer Mayes to check his breathing. Officer Mayes and Officer Stumpff starting checking for breathing and a pulse and advised he appeared unconscious. Officers rolled Inmate Richardson over onto his back and continued to check for breathing and a pulse. Officer Mayes and Stumpff advised they could not find a pulse and it appeared he was not breathing and immediately began CPR procedures.

The First Aid Kit from the workstation was retrieved in addition to medical personnel responding back to the second level. Officer Beach assisted Nurse Miles with removing Inmate Richardson's shirts and began chest compressions. Officer Wittman provided Officer Stumpff with a First Aid Mask and he (Stumpff) began rescue breaths. Sergeant Lewis then notified Security Control that Dayton Fire Department was needed to respond. Officers took turns giving sets of compressions and breaths to Inmate Richardson. The AED was retrieved and Medic Stockhauser prepared the unit as officers applied the pads. The AED performed an initial cycle and no shock was advised. As officers and medical staff continued to perform CPR on Inmate Richardson, I responded to the first floor and retrieved the first responding Dayton Fire Department medics. While escorting them to Pod D, I briefed them on the incident.

Dayton Fire Department medics took over and continued CPR measures. A short time later, Inmate Richardson was pronounced deceased by the Dayton Fire Department and Dr. Ellis. The scene was secured and I had Officer Beach remain with Inmate Richardson. Sergeant Lewis started gathering information from all persons involved and Sergeant Whalen assisted with administrative notifications.

Respectfully Submitted,

Sergeant T. Jackson #266

Report Officer 746	Date Reported 05/20/2012	Time Reported 08:34:12
-----------------------	-----------------------------	---------------------------

On 05/19/2012, I was assigned as the Prints and Photos Officer on second watch. At approximately 1522 hours, I responded to D-Pod for an unknown medical condition in Cell #544.

I entered the pod and observed Corrections Officer Benjamin #1041 opening the door to Cell #544. I heard a commotion coming from the cell. I looked in the cell and observed Inmate Robert Richardson (12-9824) on the ground. Inmate Richardson appeared disoriented and in a panic. I also observed Inmate Marcus Maxwell (12-8713) who appeared concerned and was attempting to assist Richardson. Maxwell was telling Richardson to stay seated. Additionally, I observed blood coming from Richardson's mouth area.

I attempted to speak with Inmate Richardson, but he appeared disoriented and out of touch with reality. He was flailing around, moving and appeared to be in a panic. Fearing an unintentional attack on staff, I assisted

Richardson onto his stomach and secured his left arm behind his back. Sergeant Jackson was able to secure his left arm into handcuffs. Because of his size and stature, I used a second pair of handcuffs and with assistance for Officer Stumpff and Sergeant Lewis, we were able to secure his (Richardson's) right arm. Richardson continued to struggle and failed to answer questions. I straddled his lower hips in an attempt to control Richardson's movements, so he would not injure himself or staff. Richardson still appeared to be in a panic and unaware of what was happening.

Sergeant Jackson then ordered third watch staff to replace second watch staff. I exited the pod without further incident.

Respectfully Submitted,

Corrections Officer D. L. Johnson #746

Report Officer 1163	Date Reported 05/19/2012	Time Reported 22:05:02
------------------------	-----------------------------	---------------------------

On Saturday, May 19, 2012, I was assigned as the Third Floor Officer on second watch. At approximately 1522 hours, I was on the platform turning in my keys and giving the next watch's Third Floor Officer pass ons, when Security Control radioed for available units to respond to D-pod, cell 544, for an unknown medical issue.

When I arrived to Delta pod, I stayed at the Commander while other units responded to the cell. While at the Commander, I observed Inmate Robert Richardson (12-9824), actively resisting Officers outside of cell 544. Officers tried to calm Inmate Richardson but the inmate kept thrashing his body and telling Officers to "get the fuck off of me". Officers placed restraints on Inmate Richardson to prevent him from causing injury to himself or staff.

When medical arrived at cell 544, First Floor Medic Stockhouser arrived and assessed and began treatment. Inmate Richardson continued to resist all efforts by continuously thrashing his body. I then relieved Inmate Stumpff in controlling Inmate Richardson's left arm due to this inmate being uncooperative and aggressive. At this time, I also observed blood around Inmate Richardson's face/mouth region.

Nurse Foster arrived at the pod and gave Inmate Richardson an injection. Within minutes, Inmate Richardson stopped resisting. Shortly thereafter, Inmate Stumpff checked to see if Inmate Richardson was breathing and Officer Stumpff did not hear anything coming from his mouth. We then rolled Inmate Richardson on his back to see if his chest was rising and determined he (Richardson) was not breathing. Officers immediately started CPR procedures.

As officers administered compressions, I retrieved the first aid kit, which contained breathing mask and I radioed for an available unit to respond to the pod with the AED device. Officer Hartley responded with the AED device and handed it to me. Once I had the AED, I immediately relocated to cell 544 and assisted Medic Stockhouser with prepping the AED for use. Once ready Medic Stockhouser took over with using the device.

I remained on the second level to assist with resuscitation efforts, if I was needed. As officers continued CPR, Dayton Fire crews arrived onscene and took over CPR and emergency medical treatment.

As Dayton Fire crews continued their efforts to resuscitate Inmate Richardson, I relocated to the lower level. Sergeant Jackson instructed me to report back to my third watch duties (Dress-In).

Respectfully,

Officer A.S. Wittman #1163

Report Officer 913	Date Reported 05/19/2012	Time Reported 22:02:02

Montgomery County Sheriff's Office - County Jail

Incident Report

Supplemental Narrative

Report Officer	Date Reported	Time Reported
916	05/19/2012	21:40:19

On Saturday, May 19, 2012, I was assigned at the Third Watch Classification Officer. At approximately 1530 hours, I responded to Delta Pod to assist with an unknown issue with an inmate. As I stepped up to cell 544, Inmate Robert Richardson (12-9824) was laying on the floor and struggling with officers. Inmate Richardson was handcuffed and stating, "I need out". Medic Stockhauser was trying to administer oxygen by non-rebreather mask, as Inmate Richardson was struggling with officers.

I took control of Inmate Richardson's shoulders to keep him from trying to roll over and to prevent him from injuring himself. While doing so, Nurse Miles attempted to administer a shot to Inmate Richardson but the syringe malfunctioned. While waiting for medical to arrive with another shot, Inmate Richardson continued to struggle with staff. Nurse Foster arrived and administered the shot to Inmate Richardson. A few minutes after receiving the shot, Inmate Richardson became still and unresponsive. Inmate Richardson was rolled over onto his back and I checked for a carotid pulse. No pulse was found. Officer Beach started chest compressions and Officer Stumpff started giving breathes to Inmate Richardson. Sergeant Lewis immediately notified Security Control that Dayton Fire Department was needed to respond. Officer Beach, Officer Marshall, Officer Stumpff and I continued to rotate and administer chest compressions, while medical staff administered oxygen to Inmate Richardson. The AED was brought to Delta Pod and the pads were applied to Inmate Richardson. The AED prompt advised "no shock advised" and chest compressions were continued by officers.

Once Dayton Fire Department arrived in Delta Pod, they took over all medical care of Inmate Richardson. At approximately 1608 hours, Inmate Richardson was pronounced deceased by Dr. Ellis and I remained in Delta Pod to assist Officer Rader.

Respectfully Submitted,

Corrections Officer K.T. Mayes 916

Report Officer	Date Reported	Time Reported
1137	05/19/2012	21:11:12

On Saturday, May 19, 2012, I was assigned as the Alpha-Pod Officer for Third Watch. At approximately 1528 hours, I went to Delta Pod reference an earlier radio call requesting officers for an unknown medical emergency. When I arrived in the pod, I noticed several officers at cell 544 with Inmate Robert Richardson (12-9824), who was laying on the floor.

I made my way to cell 544, where several officers already had Inmate Richardson secured in handcuffs. Inmate Richardson was thrashing his legs around trying to break free from the officer's grasp. At this time, I relieved Officer D. Johnson, who had Inmate Richardson's feet secured underneath him.

As I was holding Inmate Richardson's feet underneath me, he was still attempting to free his feet and was also make unintelligible remarks. As officers continued to maintain control of Inmate Richardson, Nurse Miles attempted to administer an injection, but it failed. Soon after, Nurse Foster arrived with another injection, which she successfully administered.

After a few minutes, Inmate Richardson stopped thrashing around and was lying there calm. Moments later Sgt. Jackson asked if Inmate Richardson was still breathing. It was at this time, that Officer Stumpff advised that Inmate Richardson was unresponsive and not breathing.

At approximately 1546 hours, Officer Stumpff called for the breathing mask and AED to be brought to our location. Officers immediately rolled Inmate Richardson onto his back and I immediately began chest compressions. After a few moments, the AED arrived. I then cut Inmate Richardson's uniform shirt and white t-shirt off so the pads to the AED could be applied. Once the AED was hooked up, it advised "no shock" and to begin CPR. I immediately restarted CPR and continued CPR (with assistance from other officers) until Dayton Fire arrived.

At approximately 1550 hours, Dayton Fire arrived and took over CPR and care of Inmate Richardson.

At approximately 1608 hours, Dayton Fire reported to Dr. Ellis (who was onscene) their findings. At that time, Dr. Ellis pronounced Inmate Richardson deceased.

Sgt. Jackson then ordered me to stay at the scene and to make sure nothing gets disturbed. I remained at the scene while EV Tech Shutts took photographs. The coroner arrived and removed Inmate Richardson's body. I stayed in the pod while the detectives conducted interviews with the remaining inmates in the pod.

The detectives and myself left the pod at approximately 2042 hours.

Respectfully Submitted,

Corrections Officer M.L. Beach 1137

Report Officer	Date Reported	Time Reported
N089	05/19/2012	20:20:58

On May 19, 2012, I was the Third Watch Medic. At approximately 1522 hours, Medical and additional units were requested to D-pod on a medical emergency.

Upon my arrival, Inmate Robert Richardson (12-9824) was on his stomach with upper left torso raised. Inmate Richardson was also combative. Blood tinged saliva was noted to his face and mouth. Inmate Richardson was very sweaty and non-responsive to verbal or painful stimuli. Inmate Richardson kept yelling "I want loose" and "get out of here."

I attempted to clear the blood and saliva away from Inmate Richardson's mouth and nose, while doing so he tried to bite me. I administered oxygen, at 15 liters per minute, via non-rebreather mask. Inmate Richardson continued to fight the oxygen. All attempts to obtain any blood pressures were not able to be obtained due to his combativeness. I requested additional medical personal to respond to assist.

Nurse Miles LPN, called medical for an order of Ativan to be given to Inmate Richardson, to calm him down. The first injection was unsuccessful and another injection was brought up and administered by Nurse Foster RN. A restraint chair was brought to the pod for use to take him to medical once he was calmed. I took my medical bag back to the main floor when the corrections staff advised Inmate Richardson was not breathing and pulseless. CPR was in progress when I arrived back on the upper level and Dayton Fire had already been requested. An AED was brought to the Pod and I instructed the corrections staff as to the placement of the pads.

Initial AED prompt advised "NO SHOCK ADVISED." Chest compressions and ventilations were performed with corrections staff rotating through compressions. AED prompts during entire rescue attempt advised "NO SHOCK ADVISED."

Dayton FD arrived and intubated Inmate Richardson, along with attempting IV access. After approximately 20 minutes of resuscitation efforts, Dayton Fire advised Dr. Ellis (on scene) that they wanted to stop rescue attempts. Dr. Ellis agreed with Dayton Fire and all rescue attempts stopped at 1608 hours.

On May 19, 2012, I was assigned as the Charge Nurse in medical on third watch. At approximately 1520 hours, I was asked to respond to D-pod for an inmate who was later identified as Robert Richardson (12-9824), who was reported to be having seizures. Upon arrival, Inmate Richardson was not seizing, but was being semi-combative with the corrections staff. Oxygen was applied to Inmate Richardson, as he continued to resist officers attempts maintain control of him. An injection was ordered for the Inmate Richardson. I attempted to administer the injection; however, it failed. Nurse Foster arrived with another syringe and administered the injection. At this time, EMT Steve and myself went to the lower level of D-pod to talk with Inmate Richardson's roommate. The corrections staff called down and advised Inmate Richardson stopped breathing. We responded back up to the upper level where the corrections staff were cutting away at Inmate Richardson's shirt to apply the AED and start CPR. CPR was administered until Dayton Fire and Rescue arrived and took over CPR and other resuscitation efforts.

Dr. Ellis called the time of death for Inmate Richardson, at 1608 hours.

-------------------------------	------------------------------------	----------------------------------

On May 19, 2012, I was assigned to medical on third watch. At approximately 1545 hours, I heard radio traffic that an ambulance was being dispatched for Inmate Robert Richardson (12-9824). RN Foster called the delta pod officer to determine what the problem was. It was reported to RN Foster, Inmate Richardson had stopped breathing. RN Foster, Dr. Ellis, and myself responded to delta pod to assist. When we arrived, Inmate Richardson was lying unconscious on the floor still restrained. CPR was being performed by corrections staff. RN Foster assumed the duties of providing artificial respirations, while I attempted to gather vital signs on the inmate. Corrections staff were rotating chest compressions. RN Foster requested Inmate Richardson's restraints be removed, which was done immediately by corrections officers.

Dayton Fire and Rescue then arrived on the scene and started their advanced cardiac life support protocols. The Dayton Paramedic on scene reported his findings to Dr. Ellis who then called time of death at 1608 hours.

Report Officer 403	Date Reported 05/19/2012	Time Reported 19:09:37
------------------------------	------------------------------------	----------------------------------

On May 19, 2012, I was assigned as the Second Watch Medical Escort. At approximately 1520 hours, I responded to Delta Pod for a Medical Emergency. Upon entering Delta Pod, I observed Inmate Robert Richardson (12-9824), actively resisting officers at the door of cell 544. I observed Inmate Richardson being handcuffed by officers. Inmate Richardson was thrashing his body around on the floor in front of cell 544, Richardson was also yelling " Let me the fuck out of here".

I remained at the work station of Delta Pod to help maintain control of the computer. Sgt. Jackson ordered me to retrieve the Restraint Chair and a Spit Hood from First Floor. I brought the Restraint Chair and Spit Hood back to Delta Pod. I also conducted an Armband Count of Delta Pod.

Respectfully Submitted,

Corrections Officer Shannon Smiley #403

Report Officer 1132	Date Reported 05/19/2012	Time Reported 18:42:19
-------------------------------	------------------------------------	----------------------------------

On Saturday, May 19, 2012, I was assigned as the Fourth Floor Officer on third watch. At approximately 1522 hours, Security Control advised of an unknown medical emergency occurring in D-Pod, Cell 544. Several other officers and I responded to D-Pod. Upon entering D-Pod, I responded to Cell 544. I observed Sergeant Jackson and Officer D. Johnson attempting to remove Inmate Robert Richardson (12-9824) from the cell.

Inmate Richardson was laying on the ground, behaving hysterically. I assisted with removing Inmate Richardson from the cell. Inmate Richardson thrashed his body around and resisted as officers struggled to gain control of him. After several moments, Sergeant Jackson, Sergeant Lewis, Officer Johnson, Officer Beach and myself were able to secure Inmate Richardson in handcuffs. It was immediately noted that he had blood, spit, and mucus coming from his mouth and facial area.

Medical was on scene and began to assess Inmate Richardson. Medic Stockhauser cleaned the bodily fluids from Inmate Richardson's facial area and attempted to place an oxygen mask around his mouth. As Medical Staff attempted to treat Inmate Richardson, he continued to thrash his body on the ground and would not remain still. Despite all verbal commands from officers to calm down, he continued his erratic behavior and thrashed around on the ground. Inmate Richardson was initially secured in two sets of handcuffs due to his physical size, however, to make it easier for medical to assess and move him, the handcuffs were replaced with a set of leg shackles.

Supplemental Narrative

Shortly thereafter, Nurse Miles attempted to administer an injection; however, it was unsuccessful. A few minutes later, an injection was administered by Nurse Foster. After the injection was administered, Inmate Richardson began to calm down. A few minutes later, Inmate Richardson wasn't moving and had become unconscious. Officers rolled Inmate Richardson over onto his back and I looked to see if his chest was rising and falling. At this time, I could not see his chest rise or fall, nor could I hear him breath. I was also unable to feel a pulse through his carotid artery.

The First Aid Kit from the workstation was requested so CPR could be performed on Inmate Richardson. As Officer Whitman retrieved the kit, Officer Beach began chest compressions on Inmate Richardson. Sergeant Lewis immediately notified Security Control that Dayton Fire Department was needed to respond. Medical staff returned to the second level. As Officer Beach finished his first set chest compressions, I began to give breaths to Inmate Richardson. Officer Beach, Officer Mayes, Officer Marshall, and I took turns giving sets of compressions and breaths to Inmate Richardson. While this was occurring, medical staff arrived with an AED. The AED was applied; however, no shock was advised. Officers and medical staff continued to perform CPR on Inmate Richardson until Dayton Fire Department medics arrived and took over the medical response.

Shortly after DFD took over, Sergeant Jackson asked me to report to my assigned post on the Fourth Floor. I left D-Pod at this time and reported to the Fourth Floor.

Respectfully Submitted,

Officer M. Stumpff 1132

Report Officer	Date Reported	Time Reported
1156	05/19/2012	17:41:11

On May 19th, 2012 I was assigned as the Third Floor Officer on Third watch. At approximately 1522 hours, I responded to Delta Pod cell 544 for a medical emergency.

Upon arriving to the location of the incident, I observed Inmate Robert Richardson (12-9824) actively resisting officers outside of Cell 544. Inmate Richardson was thrashing his body around, attempting to resist officer's from controlling him. Officers finally gained control of Inmate Richardson and I assisted in restraining him by controlling his right arm and shoulder.

Shortly after gaining control of Inmate Richardson, Medical arrived to the Pod to assess him. Medic Stockhauser wiped blood, sweat, saliva and mucus from his facial region. Medic Stockhauser was also attempting to administer oxygen. During this time, Inmate Richardson continued to resist all efforts by continuously thrashing his body. Nurse Miles attempted to administer an injection, but was unsuccessful. A few minutes later, Nurse Foster arrived and administered an injection.

After the injection was administered, Inmate Richardson stopped thrashing his body and seemed to be calming down. After a few minutes, it appeared Inmate Richardson was unconscious. Inmate Richardson was then rolled to his back to check his breathing. Officer Stumpff began to look for his chest rising and falling, while listening for any breathing. Officer Stumpff stated that Inmate Richardson was not breathing and immediately yelled for a First Aid Kit to be brought to the location.

CPR was immediately started with Officer Beach giving chest compressions and Officer Stumpff giving breaths. Medical returned to the second level and an AED was requested due to Inmate Richardson not breathing. Sergeant Lewis immediately advised Security Control that Dayton Fire Department was needed to respond to our location. The AED arrived and was attached to Inmate Richardson, but no shock was advised. Prior to Dayton Fire arriving; Officer Mayes, Beach, Stumpff and Myself continued to give chest compressions and breaths to Inmate Richardson.

Dayton Fire arrived and took over care of Inmate Richardson. I remained in the pod to assist if needed. At approximately 1608 hours, Inmate Richardson was pronounced deceased by Dayton Fire.

Sergeant Jackson instructed me to exit the Pod and go to my Third Watch assignment. I then reported to the third floor.

There is nothing further to report at this time.

Report Officer 1041	Date Reported 05/19/2012	Time Reported 16:57:50
------------------------	-----------------------------	---------------------------

On May 19, 2012, I was assigned as the Second Watch Officer in Delta Pod. At approximately 1518 hours, I had completed my final walk through of the pod. I observed Inmate Robert Richardson (12-9824) standing at his cell door of room 544 while conducting my walk through. He did not appear to have any medical issues at that time. I recall having Inmate Richardson move step away from the cell window, so I could check on the well-being of his cell mate.

At approximately 1520 hours, I exited the pod with Delta Pod inmates that needed to go to medical. At approximately 1522 hours, Security Control advised there was a medical emergency in the pod, cell 544. I returned to the pod and reported to the cell door. I observed Inmate Richardson shaking while on the floor. Inmate Marcus Maxwell (12-8713), who also assigned to this cell was holding Inmate Richardson on the ground to prevent Inmate Richardson from hurting himself. I noticed a small amount of blood on the floor of the cell. I radioed for additional units to respond to the pod. Once the units arrived to the pod and reported to the upper level, I opened the room door with the plate keys. Sergeants Lewis and Sergeant Jackson along with First Floor Medic Steve Stockhauser, Nurse Krisandra Miles, Nurse Kristy Kruse, Nurse Felicia Foster and additional units reported to the pod. Inmate Richardson was breathing at the time units responded to the pod, but he was not coherent.

Inmate Richardson was removed from his cell, so medical could evaluate him. First Floor Medic Stockhauser cleaned his facial area due to blood and sweat being at the mouth area. Inmate Richardson was laying on his stomach as units attempted to hold him in place while he was being seen by medical. Inmate Richardson was yelling and being aggressive while receiving medical attention. Units placed Inmate Richardson in wrist restraints due to him being aggressive and attempting to resist officers while on the ground.

Inmate Maxwell was removed from the cell and later questioned regarding the incident. Inmate Maxwell stated that Inmate Richardson was getting water from the sink and then he had some unknown medical issue and just fell. As Inmate Maxwell was being questioned regarding the incident, Medic Stockhauser began cleaning the blood and sweat from Inmate Richardson's face and also administer oxygen to him. Furthermore, Inmate Richardson attempted to bite Medic Stockhauser while being seen.

A short time later, Nurse Miles attempted to administer an injection, but it failed. Nurse Foster retrieved a second injection and administered the injection to Inmate Richardson, successfully. I have nothing further to report at this time.

Respectfully submitted,

Corrections Officer T.N. Benjamin #1041

Narrative

On 05/19/12, at 1615 hours, I was dispatched to the Montgomery County Jail located at 330 W. Second St., Dayton, OH, to process the scene of an in custody death.

Upon arrival, I took several digital images of the scene on one CDR. The CDR will be kept on file at District Seven.

Detectives arrived on scene and advised they did not need any further evidence collection.

Dep. Linda Shutts #831

12-4696

Supplement No
0002**MONTGOMERY COUNTY SHERIFF'S OFFICE****Narrative**

Richardson was depressed about being in jail. Inmate Maxwell stated Inmate Richardson never requested medical or asked for a Medical Kite. The only kites either of them asked for were for trying to get approved as Pod Workers.

Inmate Maxwell stated Inmate Richardson woke up this morning, Saturday, May 20, 2012, and spit some type of clear substance/fluid in the toilet, but never vomited. They continued to talk during the early morning and medical arrived and took Inmate Richardson's blood pressure. Inmate Maxwell said Inmate Richardson returned from visitation with his fiancé at approximately 1505 hours and was in good spirits, talking about completing his 30 days and going home. A few moments later Inmate Richardson stood up and walked over to the sink and bent down to get a drink of water. Inmate Maxwell stated Inmate Richardson suddenly jerked upwards, let out an indescribable yell, fell backwards onto his buttocks and began spitting out blood from his mouth. Inmate Richardson then slumped over onto the cell floor, and his hands drew upwards with clenched fists. Inmate Maxwell said Inmate Richardson's body was shaking as if having a seizure. Inmate Maxwell stated he hit the Steno and requested assistance. Inmate Maxwell stated he attempted to roll Inmate Richardson on his side, because he thought Inmate Richardson had stopped breathing. Inmate Maxwell stated approximately 20 seconds later, Inmate Richardson started moving, but appeared confused and disoriented. A few seconds later corrections officers arrived and removed Inmate Richardson from the cell and secured him (Richardson) in handcuffs.

I asked Inmate Maxwell if he observed any officers act inappropriately, punch, kick or otherwise use unnecessary force on Inmate Richardson. Inmate Maxwell stated, "No, but it shouldn't have taken four of you to handcuff him. It was a little excessive." I thanked Inmate Maxwell for his statement and concluded my contact with him.

Once detectives arrived I provided them with all pertinent information I had obtained regarding this incident. I was in and out of the pod, during the remaining investigation, as I attempted to attend to other duties within the jail.

I will forward all other documentation, such as: Divar Video(s), Detex Log(s), AED information and scene logs, with this jail incident.

Respectfully,

Sergeant B.M. Lewis #823

Narrative

On May 19, 2012, I was assigned as the Housing Sergeant on second watch at the Montgomery County Jail, located at 330 W. Second Street, Dayton, Ohio. At approximately 1520 hours, I responded to housing location, D Pod in response to a call for assistance. The assigned Corrections Officer to D Pod, Officer Benjamin called for assistance reference a medical issue in cell 544. Upon entering the pod, I responded with Officer's D. Johnson and Henning to cell 544 located on the second level of the housing unit. Officer Benjamin was at the cell door and opened it as we arrived. Officer Johnson and I entered the cell and observed Inmate Robert Richardson sitting on the floor. Inmate Richardson's cell-mate, Inmate Marcus Maxwell appeared to be providing assistance to Inmate Richardson by holding him still and trying to keep him from getting up.

Upon entering the cell, Inmate Richardson was in a seated position facing the outside wall in close proximity to the cell door. Inmate Richardson was attempting to stand up or roll forward and appeared to be disoriented and in a state of panic. Inmate Richardson's movements and physical demeanor was lethargic and unbalanced. We began to give verbal orders to Inmate Richardson, instructing him to stay seated but he did not respond. Inmate Richardson turned his head toward me and I could see he had blood and saliva coming from his mouth. Inmate Richardson had a dazed / unfocused expression on his face and didn't appear to be comprehending our verbal direction or events going on around him. Based on my initial observations related to Inmate Richardson's physical condition, behavior and comprehension, it seemed he was experiencing an unknown medical issue.

Officer Johnson and I grabbed Inmate Richardson to control his movement to prevent him from injuring himself. Because of the confined space in the cell and Inmate Richardson's physical size, Officer Johnson and I pulled him out of the cell and onto the walkway. Inmate Richardson began thrashing around and did not respond to verbal direction. Inmate Richardson was laying face down, kicking his legs, pulling his arms up towards his upper body and tried to push himself up. Inmate Richardson was also verbally grunting and breathing heavily. Officer Johnson and I made several verbal attempts to get Inmate Richardson to calm himself, relax and stop moving. Inmate Richardson would not respond to our verbal direction and became more uncontrollable. I retrieved my hand restraints and ordered Inmate Richardson be secured in them for his safety and ours. With the assistance of Officer Johnson, Inmate Richardson's left arm was placed behind his back and I secured his wrist in the restraint. Because of Inmate Richardson's size, a second set of hand restraints were utilized by Officer Johnson to assist in securing his right wrist. Officer Stumpff and Sergeant Lewis assisted in placing Inmate Richardson's left arm behind his back and his right wrist was then secured. During this incident, several more verbal attempts were made to get Inmate Richardson to calm himself, relax and stop moving. We were also unable to illicit any

Supplement No
0003**MONTGOMERY COUNTY SHERIFF'S OFFICE****Narrative**

information from Inmate Richardson or a response that was comprehensible. Inmate Maxwell was safely removed from the cell, relocated and later debriefed.

After Inmate Richardson was secured in hand restraints, he was actively thrashing around and grunting. Officer Johnson, Henning and Stumpff continued to control him from moving around and he was repositioned onto his right side. At this time, medical personnel to include Medic Stockhauser arrived at the incident and began medical assistance. Medic Stockhauser attempted to gather information from Inmate Richardson and illicit a response, but was unsuccessful. Medic Stockhauser attempted to put an oxygen mask on Inmate Richardson as he began moving his head around. Inmate Richardson finally started to say, "Get that off me." He also repeated, "I need out" and "Get me out of here." Inmate Richardson would not respond back to any verbal dialog or answer any questions.

While medical personnel was trying to treat Inmate Richardson, a decision was made by medical to give him an injection to calm him. Also, I had Officer Johnson and Henning replaced by third watch officer's responding to the incident. Officer's continued to hold Inmate Richardson's legs and both arms while he was being treated by Medic Stockhauser, who was supporting his head. Inmate Richardson was initially secured in two sets of handcuffs due to his physical size. Sergeant Lewis and I made the decision to remove the hand restraints and apply leg shackles in order to make it easier for medical to assess and move Inmate Richardson.

Officer's continued to restrain Inmate Richardson's legs and arms. Officer Mayes also replaced Medic Stockhauser with supporting his (Richardson's) head. Nurse Miles arrived to the incident and administered the first injection. Prior to the completion of the injection, the syringe malfunctioned and the injection was deemed unsuccessful. A short time later, a second injection was successfully administered by Nurse Foster in the right buttocks. While waiting for the shot to take affect, it appeared Inmate Richardson's medical condition was still undetermined and he was actively thrashing around. The Emergency Restraint Chair was ordered to the pod and was going to be utilized to safely secure Inmate Richardson, so he could be moved from the upper level of the pod to the first floor for further medical treatment.

While observing Inmate Richardson after the second injection, he appeared to calm down. Approximately two to three minutes later, I observed Inmate Richardson lying still and required no restraint. Medical personnel relocated to the first level of the pod to await the Emergency Restraint Chair. As I continued to observe Inmate Richardson, I could not hear him breathing or see his chest area rise and fall like I could moments before. I immediately asked Officer Mayes to check his breathing. Officer Mayes and Officer Stumpff starting checking for breathing and a pulse and advised he appeared unconscious. Officers rolled Inmate Richardson over onto his back and continued to check for breathing and a pulse. Officer Mayes and Stumpff advised they could not find a pulse and it appeared he was not breathing and immediately began CPR procedures.

The First Aid Kit from the workstation was retrieved in addition to medical personnel responding back to the second level. Officer Beach assisted Nurse Miles with removing Inmate Richardson's shirts and began chest compressions. Officer Wittman provided Officer Stumpff with a First Aid Mask and he (Stumpff) began rescue breaths. Sergeant Lewis then notified Security Control that Dayton Fire Department was needed to respond. Officers took turns giving sets of compressions and breaths to Inmate Richardson. The AED was retrieved and Medic Stockhauser prepared the unit as officers applied the pads. The AED performed an initial cycle and no shock was advised. As officers and medical staff continued to perform CPR on Inmate Richardson, I responded to the first floor and retrieved the first responding Dayton Fire Department medics. While escorting them to Pod D, I briefed them on the incident.

Dayton Fire Department medics took over and continued CPR measures. A short time later, Inmate Richardson was pronounced deceased by the Dayton Fire Department and Dr. Ellis. The scene was secured and I had Officer Beach remain with Inmate Richardson. Sergeant Lewis started gathering information from all persons involved and Sergeant Whalen assisted with administrative notifications.

Respectfully Submitted,

Sergeant T. Jackson #266

Couldn't see him about 8 COs
 grabbed him out of cell. Seemed
 to be having a seizure
 Gave him 2 shots of something
 He was on his back they
 shackled his feet. They were
 holding him down cause he would
 have hurt himself. Then nurses
 came cause he wouldn't settle
 down. Gave him another
 shot. They tried CPR.

Heard yelling then COs coming up steps. Benjamin had already opened cell - He was yelling & moaning. Not any thing that makes sense. Thought he was having a seizure. He was on ground. COs hold him down. He was on his back moving like spasms. CO told him to calm down. Medics trying to put oxygen mask on still on back. COs trying to tell him to calm down. That's enough stop. Did not see him on stomach only saw him on back but a lot of COs around him making it hard to see. Medics stuck him with needle.

Was asleep Heard Maxwell hit Steno
 took 12 minutes - Opened door
 Stumpf, Marshall, and Sgt Jackson
 pulled him - like mugged him like
 an altercation. Put him in regular
 cuffs first asked him what I
 was wrong. He was resisting
 handcuff - Not functioning right Breathing
 heavily. Blood coming out mouth &
 nose w/ foam - thick. More cars
 came - On his stomach 15 minutes
 Said "let me out" Marshall put
 knee on back Stumpf put knee on
 shoulder hold him down "Let me
 out" They asked him "Do you know where
 you're at?" Kept gasping for air Gave him
 oxygen he kept saying "let me out" Put on
 oxygen over face gave shot in arm. Said
 "let me up" (C/O Mays put knee on neck
 C/O Mays said it got worse before
 it gets better. They laughed & joked for
 5 minutes Gave him a shot in butt. He
 stopped moving. Mays said hey Freeman
 you want to be next. Finally flipped him over
 cut his shirt start CPR Took 30 minutes

Talked in passing keeps to himself
 Never complained wasn't feeling well
 Never saw him assaulted

Was laying down. Heard stamping
 up the stairs

Looked away ^{for a} sec - Was on his
 stomach. They were wiping
 something on his face. Uncomprehending
 Could hear him say get off of me.
 I couldn't hear COs or deputies

Nurse gave 2 shots he started to
 slow down. Tried to resuscitate

FRU-11

NARRATIVE FOR RUN REPORT

INC: 120519-0044

APP: LT011

RUN #: 892

PT. #: 1 of 1

ENTERED BY: 026802 MCGINNESS, PATRICK R.

ON: 05/19/2012 @ 17:33:33

RELATED TO: PATIENT

NAME: [REDACTED]

NARRATIVE:

1: 28yo black male found lying supine on jailhouse floor with several Staff
2: members around him and CPR being performed. Staff member states that pt
3: has been down approx 10-15 min and had AED applied that was advising NO
4: SHOCK, CONTINUE CPR. Ladder 11 crew stepped in to evaluate PT. Medic found
5: no pulse or lung sounds. Ladder crew utilized Jail's AED to reevaluate and
6: analyze rythmn. No Shock advised so crew continued CPR while intubation
7: equipment was set up. Medic visualized mouth for foreign objects and found
8: it to be filled with bloody sputum. Intubation was successfully made after
9: airway suctioned and confirmed using Colormetric device, visualization and
0: auscultation, then secured accordingly and hooked to continuous Oxygen
1: source and Bagvalve. CPR continued. Medic 11 crew set up 12ld monitor and
2: reevaluated with no change in cardiac status. Rythmn checked in 2 leads,
3: both showing Asystole and no shockable rythmn. Several IV attempts made but
4: found unsuccessful. ON SCENE Jail Dr, who was standing over us, advised
5: Termination and called TOD at 1608. Pt hx revealed that pt was actively

NARRATIVE FOR RUN REPORT

INC: 120519-0044

APP: LT011

RUN #: 892

PT. #: 1 of 1

ENTERED BY: 026802 MCGINNESS, PATRICK R.

ON: 05/19/2012 @ 17:51:03

RELATED TO: PATIENT

NAME: [REDACTED]

NARRATIVE:

1: seizing PRIOR to our arrival and became combative and postictal in nature.
2: Jail Staff members state that pt was swinging at them and became belligerent
3: so they took pt to the ground and placed him on his stomach. Staff then
4: called for jail RN. RN was reported to have given the Pt "a shot," and after
5: approx 2 minutes with staff holding pt, they turned him on his back and
6: found that he was not breathing so they initiated CPR and called 911. Jail
7: Staff Dr (Ellis) and Medic (Stockhauser) initiated care prior to our
8: arrival. No removal made. Coroner notified after approved field termination
9: from Dr. Ellis and pt left in care of Jail Staff. -PRM

- II. Acute marijuana intoxication (see separate toxicology report).
- III. No evidence of significant trauma.
- IV. Benign polyp, right vocal cord.
- V. Contusion, right side of tongue.

OPINION

It is my opinion that the cause of death of Robert Richardson is:
Cardiac arrhythmia due to hypertensive and arteriosclerotic cardiovascular disease.
The death is contributed to by acute marijuana intoxication and obesity.

It is my opinion that the manner of death is: Accident.

Bryan D. Casto M.D., Forensic Pathologist
Deputy Coroner, Montgomery County, Ohio

6-21-2012
Date

Robert Richardson

Case# 12-1993

A postmortem examination of the body of a 28-year-old black male, identified as Robert Richardson, is performed at the Montgomery County Coroner's Office on May 20, 2012. The examination is conducted by Bryan D. Casto M.D., and is begun at 9:25 a.m.

ATTENDANCE

In the performance of their usual and customary duties, Autopsy Assistants Peter Lane, Michelle Welch, and Photographer Laura Todd are present during the autopsy.

CLOTHING:

The body is received clad in socks, pants, shirt, underwear and undershirt.

PROPERTY:

None.

IDENTIFICATION TAGS:

Montgomery County Coroner's Office identification bands are around the right and left ankles. An additional identification band is around the right wrist.

EXTERNAL EXAMINATION:

The body is that of a well-developed, obese, adult male; 282 pounds and 72 inches, whose appearance is appropriate for the reported age. The body is cold following refrigeration. Rigor mortis is generalized. Livor mortis is red-purple, posterior, and blanches with pressure.

Scalp hair is black and 1/2 inch in maximum length. Irides appear brown. Sclerae and conjunctivae are clear, with only scattered petechiae. The nose and ears are not unusual. The decedent wears a mustache and beard. Teeth are natural and in fair repair. The tongue appears normal.

The neck is unremarkable. The thorax is well-developed and symmetrical. The abdomen is protuberant. The anus and back are unremarkable. External genitalia are those of a well-developed adult male.

Upper and lower extremities are also well developed and symmetrical, with no significant injuries or edema.

Robert Richardson

Case# 12-1993

IDENTIFYING MARKS:

There are numerous tattoos.

There is a pair of scars across the anterior right shoulder.

EVIDENCE OF MEDICAL INTERVENTION:

Two external cardiac pacer/defibrillation pads are adhered to the body along with multiple ECG/cardiac monitor pads. An endotracheal tube is appropriately positioned and inserted through the mouth.

EVIDENCE OF INJURY:

Along the medial aspect of the left elbow region is a 1 x 1/4 inch contusion.

On the right upper buttock area are numerous striae with admixed focal contusion over an area approximately 3 x 1/2 inch.

INTERNAL EXAMINATION:

Lungs fill the pleural cavities. The mediastinum is in the midline. The diaphragm is without abnormality. Thoracic and abdominal cavities are without abnormal fluid collections or significant adhesions.

CARDIOVASCULAR SYSTEM:

The heart is 530 grams. Epicardial surfaces are smooth, glistening, and unremarkable. The pericardial sac is free of significant fluid or adhesions. Coronary arteries arise normally, following a right-dominant pattern with 75% atherosclerotic narrowing of the left anterior descending coronary artery, with remaining main coronary arteries widely patent. Cardiac chambers are significant for dilated left ventricle; however, the remaining chambers are unremarkable. Valves are membranous, without stenosis, redundancy or vegetations. The right ventricular wall thickness is 0.5 cm; the free left ventricular wall and interventricular septum are thickened at 1.8 cm and 1.7 cm, respectively. The myocardium is uniform red-brown, free of abnormal markings. Atrial and ventricular septa are intact. The aorta and its major branches arise normally and follow the usual course with fatty streak atherosclerosis. The vena cava and its major tributaries are thin walled and patent, in the usual distribution.

Robert Richardson

Case# 12-1993

RESPIRATORY SYSTEM:

Right and left lungs weigh 695 grams and 605 grams, respectively. The tracheobronchial tree is patent and mucosal surfaces intact. Pleural surfaces are translucent, smooth, and glistening. Pulmonary parenchyma is red-purple and exudes abundant congestive blood from the cut surfaces. Pulmonary arteries and veins are normally developed and patent.

DIGESTIVE/HEPATOBIILIARY SYSTEM:

The esophagus is lined by intact tan smooth mucosa. The gastric mucosa is flattened by autolysis, and the lumen contains approximately 15 mL of tan fluid. Small and large intestines are unremarkable. The mesentery and omentum appear normal. The colon contains formed stool. The pancreas has the usual tan lobulated parenchyma, and the ducts are clear.

The 1940 gram liver has a smooth, intact capsule covering congested red-brown parenchyma. The thin-walled gallbladder contains approximately 15 mL of viscid bile. The extrahepatic biliary tree is patent.

ENDOCRINE SYSTEM:

Pituitary, thyroid, and adrenal glands are unremarkable.

GENITOURINARY SYSTEM:

Normal-shaped kidneys are symmetrical and together are 335 grams. Capsules are smooth, thin, semitransparent, and strip with ease from underlying smooth, red-brown cortical surfaces. Cortices are sharply delineated from medullary pyramids. Calyces, pelves, and ureters are unremarkable. The urinary bladder contains no urine; the mucosa is gray-tan and intact.

The prostate and testes are of appropriate size, without injury or other abnormality.

HEMATOPOIETIC SYSTEM:

The thymus is dispersed in anterior mediastinal fat. The 140 gram spleen has a smooth intact capsule covering red-purple parenchyma. Regional lymph nodes have the usual distribution and appearance. Bone marrow is red-brown and homogeneous, without focal abnormality.

Robert Richardson

Casc# 12-1993

MUSCULOSKELETAL SYSTEM:

The bony framework, supporting musculature, and soft tissues are remarkable only for previously described minor injuries.

NECK:

Examination of the soft tissues of the neck, including strap muscles and large vessels, reveals no abnormalities. The hyoid bone and larynx are intact; however, there is a smooth polypoid mass arising from one vocal cord. Serial sectioning of the tongue reveals focal contusion along the right side.

NERVOUS SYSTEM:

The brain weighs 1545 grams. Dura mater and falx cerebri are intact, and leptomeninges are congested, but thin and delicate. Cerebral hemispheres are symmetrical, with a normal pattern and distribution of sulci and gyri. Structures at the base of the brain, including cranial nerves and blood vessels, are intact and free of abnormality. Sections of the cerebral hemispheres reveal no lesions within the cortex, subcortical white matter, or deep parenchyma of either hemisphere. Cerebral ventricles are of normal caliber, containing clear cerebrospinal fluid. Sections through the brainstem and cerebellum are unremarkable.

SPECIAL STUDIES:

Routine toxicology studies reveal evidence of acute marijuana intoxication. Vitreous profile is unremarkable and without electrolyte abnormality or abnormalities in glucose or renal function.

Robert Richardson

Case# 12-1993

MICROSCOPIC EXAMINATION

CORONARY ARTERY: Fibrous and lipid atherosclerosis

LUNGS: Intra-alveolar blood; anthracosis.

LIVER: Acute centrilobular congestion; mild steatosis.

PANCREAS: Autolysis.

SPLEEN: Red pulp congestion.

TONGUE: Fresh intramuscular contusion.

LARYNGEAL POLYP: Benign polyp covered by keratinizing squamous epithelium and containing large numbers of thin-walled blood vessels and fibrin deposits.

HEART, ADRENAL GLAND, KIDNEY, PITUITARY GLAND, AND BRAIN: No significant histopathologic abnormality in sections examined.

Toxicology Laboratory Report

Decedent: Robert Richardson B/M/28 Years
Case Number: 12-1993

Requesting Agency: Montgomery County Coroner's Office

Toxicology Service Requested

B Service: Consists of screening tests for *Basic Volatiles* (ethanol, methanol, acetone, and isopropanol) and a Drug Screen by Elisa immunoassay (amphetamine class, barbiturates, benzodiazepines, carisoprodol, cocaine metabolite, marijuana metabolite and opiates). Confirmation and quantitation are performed on positive screens. A general screen for drugs and other substances by extraction and subsequent analysis by GC/MS is also performed with confirmation and quantitation as appropriate. Specific tests are also performed as appropriate.

Initial Screening Tests and Results

Basic Volatiles Screen

Analyte	Specimen	Results
Basic Volatiles (Ethanol, Methanol, Isopropanol, Acetone)	Blood, Femoral	Not Detected

Color Screens

Analyte	Specimen	Results
Acetaminophen (Tylenol, APAP)	Blood, Femoral	Not Detected
Salicylic acid (Salicylate)	Blood, Femoral	Not Detected

ELISA Immunoassay Screen

Analyte	Specimen	Results
11-carboxy-Tetrahydrocannabinol	Blood, Femoral	Positive
Other drugs by immunoassay	Blood, Femoral	Not Detected

GC/MS Acidic Drug Screen

Analyte	Specimen	Results
Acidic/Neutral Drugs	Blood, Heart	Not Detected

GC/MS Basic Drug-Screen

Analyte	Specimen	Results
Cotinine (metabolite of nicotine)	Blood, Heart	Positive

Confirmation and Quantitation Tests and Results

Nationally Accredited by The American Board of Forensic Toxicology

Toxicology Report - Case Number 12-1993 Continued...**THC, Blood**

Analyte	Specimen	Results
11-carboxy-Tetrahydrocannabinol	Blood, Femoral	63 ng/mL
Tetrahydrocannabinol (THC)	Blood, Femoral	16 ng/mL

Vitreous Profile

Analyte	Specimen	Results
Chloride	Vitreous	122 mEq/L
Creatinine	Vitreous	1.1 mg/dL
Glucose	Vitreous	< 20 mg/dL
Potassium	Vitreous	> 9 mEq/L
Sodium	Vitreous	147 mEq/L
Urea nitrogen	Vitreous	11 mg/dL
